Army units

Every unit in the game: strength, cost, speed, type, Druid requirement, terrain and abilities

Kingdoms Call reference sheet. Data file v2026.10.15-1202. Generated 2026-10-19 from the repository (branch at that date). Numbers are what the engine uses today, read straight from its tables; where a figure comes from the rulebook text instead, the section says so.

51 units: 29 humanoid (four races, with garrisons and fleets), 9 Creatures and 9 Monsters, and the five summoned elementals. A unit's real strength is base × quality (Green 1, Average 2, Veteran 3, Crack 4, Elite 5); its cost is both the recruit price and the wage every turn. Strength per gold is base ÷ cost.

What to look for when reviewing

- Strength per gold: humanoid line units sit around 2.0; the beasts were set at 2.6–2.75 (Druid 4) and 2.4–2.6 (Druid 5) because they never get the ×1.44 kinship.
- Every humanoid unit has a matchup ability and one more (R-095); every beast a signature multiplier and most a pre-battle strike (R-106).
- Terrain multipliers per unit (also on the Terrain sheet) and the Druid level needed to lead it.
- Which units are missing from a race's cells by terrain (see the Races sheet).

Human units

Unit	Race / family	Type	Base str	Cost = wage	Str per gold	Move	Druid	Classes	Terrain (plains, desert, forest, jungle, mountain)	Abilities
Men-at-Arms	Human	infantry	6	3	2.00	2	1	light foot (half a hull)	Pla ×1.10 Des ×1 For ×0.90 Jun ×0.85 Mou ×0.90	Halberds — ×1.25 facing cavalry. Sergeants — Levies beside them in the front line fight ×1.1.
Shieldwall Levies	Human	infantry	4	2	2.00	2	1	light foot (half a hull)	Pla ×1.10 Des ×1 For ×0.90 Jun ×0.85 Mou ×0.90	Spear Hedge — cavalry facing them in the line fights at no better than ×0.75 (the Unicorn Herd's Purity breaks it). Shieldwall — ×1.25 when an archer stands in the second line behind them.
Human Garrison	Human	infantry	2	1	2.00	1	1	garrison, light foot (half a hull)	Pla ×1 Des ×0.90 For ×1 Jun ×1 Mou ×1	Hold the Gate — defending, never hit from the side when the enemy line wraps its end. Town Watch — counts as Levies for Shieldwall and for anchoring the line.
Yeoman Longbows	Human	ranged	4	2	2.00	2	1	missile, light foot (half a hull)	Pla ×1.10 Des ×0.90 For ×0.85 Jun ×0.80 Mou ×1	Bodkin Points — no penalty shooting cavalry from the second line (other archers fire at ×0.75). Prepared Ground — defending, they loose two pre-battle volleys.
Gilded Lances	Human	cavalry	7	4	1.75	3	1	cavalry	Pla ×1.15 Des ×1.15 For ×0.75 Jun ×0.70 Mou ×0.75	Lance Charge — ×1.15 facing foot, where cavalry is usually ×0.85 (a Spear Hedge still stops it). Knightly Example — while a Gilded Lances unit is in the army, your Levies and Men-at-Arms never lose a tier in defeat.
Free Lances	Human	cavalry	6	3	2.00	4	1	cavalry	Pla ×1.15 Des ×1.15 For ×0.75 Jun ×0.70 Mou ×0.75	Harriers — ×1.15 in a flank duel. Ride Them Down — in plains and desert only, each adds +6% to enemy losses when your side wins (max +18%). Works the same against neutral defenders — and theirs works the same against you.

Unit	Race / family	Type	Base str	Cost = wage	Str per gold	Move	Druid	Classes	Terrain (plains, desert, forest, jungle, mountain)	Abilities
Noble Griffons	Human	flyer	6	4	1.50	5	1	winged rider (lifts one foot), crosses sea by air	Pla ×1 Des ×1 For ×0.75 Jun ×0.75 Mou ×1	Dive on the Bowmen — the enemy's strongest second-line archer fights ×0.75. Screech Dive — a diving pre-battle strike scatters one enemy unit (2–4), one chance in two whatever the commander's Druid.
Galleon Fleet	Human	naval	5	3	1.67	3	1	carrier (1 berth)		Broadside — fires in the pre-battle archery phase during sea battles.

Elven units

Unit	Race / family	Type	Base str	Cost = wage	Str per gold	Move	Druid	Classes	Terrain (plains, desert, forest, jungle, mountain)	Abilities
Forest Wardens	Elven	infantry	4	2	2.00	3	1	light foot (half a hull)	Pla ×1 Des ×0.90 For ×1.10 Jun ×1.10 Mou ×0.85	Woodland Skirmish — ×1.15 in forest and jungle, whatever they face. Ambush — in forest or jungle, the side facing them gets no archery phase at all (unless Eagle Riders fly with it). Works attacking or defending, and against province defenders as well as another realm.
Elven Garrison	Elven	infantry	2	1	2.00	1	1	garrison, light foot (half a hull)	Pla ×1 Des ×0.85 For ×1.10 Jun ×1.10 Mou ×0.90	Thorn Hedge — cavalry facing it in forest or jungle ×0.85. Tree Watch — in forest or jungle it shoots in the archery step like an archer unit.
Shadow Archers	Elven	ranged	7	4	1.75	3	1	missile, light foot (half a hull)	Pla ×0.90 Des ×0.85 For ×1.10 Jun ×1.10 Mou ×1	Marksmen — ×1.25 shooting archers from the second line, and they pick the best target anywhere along the enemy front. Loosed From Cover — cannot be targeted by enemy volleys (unless Eagle Riders fly with the shooters).
Elven Bowmen	Elven	ranged	5	3	1.67	2	1	missile, light foot (half a hull)	Pla ×1 Des ×0.80 For ×1.15 Jun ×1.10 Mou ×1	Volley at the Charge — ×1.25 shooting cavalry from the second line. Woodland Volley — double volley damage in forest and jungle.
Stag Riders	Elven	cavalry	6	3	2.00	4	1	cavalry	Pla ×1.10 Des ×1 For ×1.10 Jun ×1 Mou ×0.85	Through the Trees — the one cavalry that takes a flank in forest and jungle. Forest Runners — ×1.1 in forest and no penalty in jungle (see the roster).
Eagle Riders	Elven	flyer	6	4	1.50	5	1	winged rider (lifts one foot), crosses sea by air	Pla ×1 Des ×1 For ×0.75 Jun ×0.75 Mou ×1	Stoop on the Horses — on open ground they may hold a flank slot no rider fills, and fight cavalry at ×1.25. Eyes of the Forest — while they fly with your shooters, an enemy Ambush is spoiled and Shadow Archers can be shot at.
Elven Galleys	Elven	naval	5	3	1.67	4	1	carrier (1 berth)		Sea Archers — your ranged units ignore the land-unit penalty at sea.

Dwarven units

Unit	Race / family	Type	Base str	Cost = wage	Str per gold	Move	Druid	Classes	Terrain (plains, desert, forest, jungle, mountain)	Abilities
Dwarven Guard	Dwarven	infantry	6	3	2.00	2	1	light foot (half a hull)	Pla ×0.90 Des ×0.90 For ×0.90 Jun ×0.85 Mou ×1.10	Unbreakable — foot facing them in the line ×0.85, and they are never hit from the side. Shield Fort — when at least half the front line is Guard (a Dwarf Garrison counts), a beaten force never routs: with a retreat open it withdraws in good order (immune to pursuit losses and to demotion in retreat); trapped, it locks shields and holds the province contested with no flight casualties. In every battle, and for a province's own Guard defenders too.
Dwarf Garrison	Dwarven	infantry	2	1	2.00	1	1	garrison, light foot (half a hull)	Pla ×0.90 Des ×0.85 For ×0.90 Jun ×0.85 Mou ×1.15	Stone Halls — foot facing it in the mountains ×0.9. Deep Halls — counts as Guard for Shield Fort.
Mountain Guns	Dwarven	ranged	7	4	1.75	2	1	missile, light foot (half a hull)	Pla ×0.85 Des ×0.85 For ×0.80 Jun ×0.75 Mou ×1.10	Bombard — ×1.15 from the second line, whatever they shoot. Bombardment — fire before all other ranged units, and +50% volley damage against garrisons.
Ironwood Crossbows	Dwarven	ranged	4	2	2.00	2	1	missile, light foot (half a hull)	Pla ×1 Des ×1 For ×0.90 Jun ×0.85 Mou ×1.10	Armour-Piercing — ×1.25 shooting a unit of base strength 6 or more from the second line. Punch Through — can soften a target to 55% instead of the usual 40% limit (90% instead of 80% against a winged rider).

Unit	Race / family	Type	Base str	Cost = wage	Str per gold	Move	Druid	Classes	Terrain (plains, desert, forest, jungle, mountain)	Abilities
Ironhoof Rams	Dwarven	cavalry	6	3	2.00	3	1	cavalry	Pla ×1 Des ×0.90 For ×0.90 Jun ×0.85 Mou ×1	Battering Horns — a Ram riding free turns the enemy flank even when infantry anchor both ends of its line. Crag Charge — the one cavalry that takes a flank in the mountains.
Gnomish Gyrocopters	Dwarven	flyer	5	3	1.67	4	0	winged rider (lifts one foot), crosses sea by air	Pla ×1 Des ×1 For ×0.75 Jun ×0.75 Mou ×1	Flak Gunners — ×1.25 when the enemy has flyers. Flak Screen — each engages one enemy flying unit before the battle (−30% strength). No two gyrocopters engage the same flyer.
Dwarf Ironclads	Dwarven	naval	7	4	1.75	2	1	carrier (1 berth)		Armoured Hulls — immune to pre-battle volleys.

Orcish units

Unit	Race / family	Type	Base str	Cost = wage	Str per gold	Move	Druid	Classes	Terrain (plains, desert, forest, jungle, mountain)	Abilities
Orc Berserkers	Orcish	infantry	6	3	2.00	3	1	light foot (half a hull)	Pla ×1 Des ×1.05 For ×1.10 Jun ×1.05 Mou ×0.90	Frenzy — ×1.15 facing foot. Driven Before Them — +10% for each Goblin Horde beside them in the front line.
Goblin Horde	Orcish	infantry	3	2	1.50	2	1	light foot (half a hull)	Pla ×1 Des ×1 For ×1 Jun ×1 Mou ×0.90	Arrow Fodder — second-line archers shooting them fire at ×0.75. Sheer Numbers — +10% strength per other orc foot unit in the force (Goblin Hordes, Berserkers, the Orc Garrison), max +30%.
Orc Garrison	Orcish	infantry	2	1	2.00	1	1	garrison, light foot (half a hull)	Pla ×1 Des ×0.90 For ×1 Jun ×1 Mou ×0.90	Bloodthirsty — defending, ×1.15 facing foot. Raiders' Muster — an orcish province that sees an orc realm win there gains a Goblin Horde in its garrison at turn's end, for nothing.
Black Arrows	Orcish	ranged	4	2	2.00	2	1	missile, light foot (half a hull)	Pla ×1 Des ×1 For ×0.90 Jun ×0.90 Mou ×0.90	Brawling Archers — full strength when forced into the front line, where other archers fight ×0.75. Raiders' Volley — their pre-battle volley does ×1.5 when attacking.
Warg Riders	Orcish	cavalry	6	3	2.00	4	1	cavalry	Pla ×1.10 Des ×1.10 For ×0.90 Jun ×0.80 Mou ×0.80	Wolves Panic Horses — ×1.25 facing cavalry. Run Them Down — if at least half your winning force are Wargs, they run the beaten army down on the field: every beaten unit is 15% more likely to be destroyed in the rout, on any ground (not against a Dwarven Shield Fort). There is no chase afterwards. Against neutral guards, who never flee, they end the fight fast instead: half casualties for you on a win.
Wyvern Riders	Orcish	flyer	6	4	1.50	5	1	winged rider (lifts one foot), crosses sea by air	Pla ×1 Des ×1 For ×0.75 Jun ×0.75 Mou ×1	Terror From Above — the enemy's strongest front-line unit fights ×0.85. Acid Spit — a pre-battle strike on one enemy unit (2–5), one chance in two whatever the commander's Druid.
Orcish Longships	Orcish	naval	5	3	1.67	3	1	carrier (1 berth)		Reaver Crews — the whole force fights at +25% in any battle the phase it lands from these ships, even if another hero takes command of the combined host.

Creatures (Druidic realms lead them free)

Unit	Race / family	Type	Base str	Cost = wage	Str per gold	Move	Druid	Classes	Terrain (plains, desert, forest, jungle, mountain)	Abilities

Stone Giants	Creature	infantry	13	5	2.60	2	4		Pla ×0.90 Des ×0.90 For ×0.90 Jun ×0.80 Mou ×1.15	Boulder Wall — cavalry facing them fights at no better than ×0.75 (the Unicorn Herd's Purity breaks it). Boulder Barrage: a pre-battle strike that shatters one enemy unit (4–7). At home in the mountains (terrain ×1.15); slow.

Unit	Race / family	Type	Base str	Cost = wage	Str per gold	Move	Druid	Classes	Terrain (plains, desert, forest, jungle, mountain)	Abilities
Unicorn Herd	Creature	cavalry	13	5	2.60	4	4	cavalry	Pla ×1.10 Des ×1 For ×1.10 Jun ×0.90 Mou ×0.85	Purity — ×1.25 facing Monsters and skeletons, and it breaks a Spear Hedge or a Boulder Wall (no ×0.75 cap). Through the Glades — the one cavalry, with the Stag Riders, that takes a flank in forest and jungle. At home on the plain and in the forest (terrain ×1.1).
Mammoth Host	Creature	infantry	13	5	2.60	2	4		Pla ×1.10 Des ×0.85 For ×0.80 Jun ×0.75 Mou ×1	Trample — ×1.15 facing foot. Stampede: a pre-battle strike across the whole enemy line (2–4 each). At home on the open plain (terrain ×1.1), ill at ease under trees; slow.
Great Turtles	Creature	naval	13	5	2.60	2	4	carrier (2 berths), sea-beast (carries nothing)		Island Back — carries two land units a hull, where a fleet carries one. Shell Wall — immune to pre-battle volleys, as the Ironclads. Island-backed turtles of the prosperous seas that swim under their own power; slow.
Thunderbirds	Creature	flyer	11	4	2.75	5	4	crosses sea by air, tamed flyer (Dragon Taming)	Pla ×1 Des ×1 For ×0.75 Jun ×0.75 Mou ×1	Storm Wings — every enemy unit in the air fights ×0.85. Lightning Strike: a pre-battle strike on one enemy unit (4–8). Storm-birds of the high crags that fight from the air, taking no place in the line.
Forest Ents	Creature	infantry	11	4	2.75	2	4		Pla ×0.90 Des ×0.75 For ×1.15 Jun ×1.15 Mou ×0.90	Rooted — never hit from the side when the enemy line wraps their end. Great Bears	Creature	infantry	11	4	2.75	3	4		Pla ×1 Des ×0.80 For ×1.10 Jun ×1 Mou ×1.10	Maul — ×1.15 facing foot. Thick Hide — pre-battle volleys against them do half. At home in forest and mountain (terrain ×1.1), poor in the desert; move 3.

Shark Shoals	Monster	naval	5	3	1.67	5	3	sea-beast (carries nothing)		Shoal Swarm — +10% strength per other Shark Shoals in the force, to +30%. Feeding Frenzy — when at least half the winning force are shoals, a foe beaten at sea takes +15% rout losses. A shoal is no hull: it carries nothing.
Eldritch Kraken	Monster	naval	15	6	2.50	2	4	sea-beast (carries nothing)		Deepwater Grasp — ×1.35 strength at sea. Crushing Coils: a pre-battle strike that drags one enemy unit under (5–9).
Manticore Pride	Monster	flyer	13	5	2.60	5	4	crosses sea by air, tamed flyer (Dragon Taming)	Pla ×1 Des ×1 For ×0.75 Jun ×0.75 Mou ×1	Relentless Hunt — ×1.25 strength when their side is the attacker, and when at least half the winning force are Manticores the beaten foe takes +15% rout losses. Quality, recruiting and wages

Rule	What it is
Quality multiplier	Green ×1, Average ×2 (a new recruit), Veteran ×3, Crack ×4, Elite ×5. Below Green a unit disbands (no grave).
Promotion	Winning battles (by result band), a commander's drills (Practice Tactical for land and air, Naval for fleets: Green 5% / Average 4% / Veteran 3% / Crack 2% × level), and garrison self-drill at Tactical/Naval 1 each turn. Humans doubled. Skeletons never change.
Wage	The recruit price again every turn, garrison included, paid with tax at turn's end (so a new unit costs double its first turn). Skeletons 1g. Orcish attackers who win pay half that turn. Druid 6 halves beast wages; the Druidic Wonder too.
Recruit cap	One of each type per province per turn; two for garrisons, Goblin Hordes and humanoid fleets; two of anything at the home capital (R-047). Beasts are recruited where they live, and a hero leads at most as many as his Druid level (R-103).
Bankruptcy	Units disband greenest first anywhere in the realm, skeletons last; then heroes desert. A ship carrying troops at sea is never disbanded while they would be stranded.
Sea lift	One land unit per hull (two per Great Turtle); light foot take half a hull; cavalry and walking beasts a full one; sea-beasts carry nothing. Winged riders lift one foot unit each. Land troops fight at sea at ×0.75; air-carried at ×0.25 (their carriers ×0.5).
Druid shortfall	Each missing Druid level costs the unit 20%; each level above adds 20%, to +100% (R-036).

Strength per gold, every unit (base ÷ cost; higher is cheaper strength)

These are observations from reading the data files, the engine and the rulebook together. None of them is a ruling. Each is a question for Toby or a place where two sources disagree.

#	Observation
1	Strength per gold runs from Whale Cohort 1.33, Eagle Riders 1.50, Goblin Horde 1.50 to Thunderbirds 2.75, Great Bears 2.75, Forest Ents 2.75. Garrisons and line foot sit at 2.0; most elite humanoid units at 1.5–1.75. The beasts are deliberately above the humans (no kinship); the lowest three are well below everything else.
2	Corsair Fleet is retired (R-109) yet still in the cost, speed, terrain and unit-type tables; "Siege Towers" appears in the Minor Title heavy-unit list though no such unit exists.
3	The primal "cat" field (Heavy, Free Lances, Naval, Cavalry) is an internal category that still calls flyers "Free Lances"; harmless but confusing in the data file.
4	Goblin Horde (3 for 2g) is the weakest humanoid unit and can be raised two a turn; Sheer Numbers (+10% per other orc foot, to +30%) is what makes it work. Check it is used that way.
5	Elven Galleys' Sea Archers removes the land-unit penalty at sea for ranged units only; nothing lifts infantry or cavalry at sea except Naval 8. Fleets of the four races are 5/5/7/5 strength for 3/3/4/3 gold with one ability each.
6	Four units have no pre-battle strike (Shark Shoals, Great Bears, Unicorn Herd, Great Turtles); the Thunderbirds' strike (4–8 on one unit) and the Crimson Rocs' (5–9) are the biggest single-unit strikes while the all-line strikes do 2–4 to 3–6 each.
7	R-095 open question: Pack Hunt (Wargs), Panic (Wyverns) and Close Order were not built as third abilities.
8	Flyers fight ×0.75 under trees (R-100) and the winged riders take double from arrows and are shot first; the flying beasts take normal arrows and are not singled out. Two different flyer rules for the player to remember.
